

**Domestic » CEILING FAN**

**Double ball bearing:**

Almonard ceiling fans are fitted with heavy duty grease filled double ball bearing that ensures noiseless performance and long lasting smoother life.

**Blades:**

Fan blades are aerodynamically balanced to ensure maximum air delivery at a lower power consumption, The blades are made of 'heavy gauge' aluminum sheet so as to retain the blade's angel over a longer period

**motor :**

Fan motors are made of superior grade copper wire and impregnated in special varnish for long life operation. The motors are totally enclosed and low-loss-silicon steel stampings ensure minimum power consumption with high optimum output.

**Paint :**

Fans are coated with a special anticorrosive enamel paint that makes them rust free and ensures a classic appearance and longer life. Available with attractive Brown and White colours.

**Quality**

**Regulators:**

Fan regulators are provided with vitreous enamel coated Ni-Chrome wire wound resistors with five speeds variations.

**Standard:**

Almonard fans are conforming to ISI specifications.

**Ceiling Fans are guaranteed for 2 years**
